

Interim Team Taking on Various Functions to Stabilize the Finance Department

KUGU

Customer Pocket Story

torq.finance

Duration: 6 months

“With the support of torq.partners, we were able to optimize many of our financial processes, and set up our finance function for success.”

Nikola Mikac
COO

Project Scope

Interim finance support including preparatory accounting and reporting as well as process optimization.

Use Cases

- Preparatory accounting
- Monthly financial reporting
- Monthly billing
- Dunning process
- Tooling
- Implementation of spend management tool

Industry

PropTech, real estate

Problem

- **Staffing constraints** and short-term deliverables were colliding.
- **Many processes were handled manually** and made the Finance function less scalable.
- The monthly **closing process was lengthy**.

Solution

- **Automation of accounts receivable** and budget management via Moss
- **Optimization of the monthly closing process**
- **Improvement of the reporting infrastructure**

Impact

- We ensured an **easier delivery of the continuous reporting needs**.
- We **improved the process efficiency**.
- Ultimately, our interim support helped to **create a more scalable Finance function**.
