

## Customer Pocket Story

Duration: 06/2024 – today

“The interim support was a tremendous support during my CFO to CEO transition. Ensuring peace of mind, that operational finance processes were in good hands and important finance projects were solidly executed.”

Sabrina Flunkert  
CEO

### ✓ Project Scope

Interim Director of Finance, Interim Senior Accountant, Interim Head of Treasury

### ✓ Use Cases

- Leading the finance function as interim Director of Finance
- Covering the general ledger accounting senior position
- Covering the Interim Head of Treasury position and managing the go-live of an ABS financing structure

### ✓ Industry

FinTech

# Seamless *Finance* *Leadership* in Transition

## Problem

- There was a management transition and a need for **bridging the hiring gap** for positions in the Finance team.
- Critical **business-as-usual activities needed to continue** seamlessly.
- The **tight deadlines for the monthly closing** of 5 working days for the Nexi Group had to be upheld.
- **Supervision of the annual closing and financial audit was required.**
- **Ongoing strategic projects** like ABS financing and contract renegotiations **needed continued momentum.**

## Solution

- **Rapid onboarding and integration of interim experts** across finance leadership, accounting, and treasury roles.
- Seamless **takeover of existing well-structured monthly close process** without disruption.
- **Active coordination** with internal and external stakeholders to **maintain business continuity.**
- **Hands-on execution of critical projects** (e.g., SPV/ABS setup, audit preparation) with minimal handover time.
- **Lead the team** until permanent hire arrived.

## Impact

- There was **no disruption to business-critical financial operations.**
- **Monthly closing deadlines were consistently met** thanks to continuity in established processes.
- **Annual audit was completed on time**, ensuring full compliance and audit-readiness.
- **Strategic financial initiatives were successfully executed** (e.g. ABS financing go-live).
- The **finance function remained stable and effective** until full-time staff were onboarded.
